

Walk Mowers, Lawn Tractors & Zero Turns

BRIGGS & STRATTON CORPORATION

Easy to Use. Easy to Own.

The Easy Choice

Snapper® mowers take practical, innovative features and integrate them into a straightforward design that's easy to use and easy to own. It's that simple.

Get More Work Done

With integrated cargo beds (select models) and other time saving innovations Snapper mowers are built to help you get the job done.

Straightforward Design

With a straightforward approach Snapper mowers are built to be intuitive, durable, and easy-to-use which empowers you to get more work done.

Dependable Productivity

Snapper mowers feature durable, dependable components like Hydro-Gear® transaxles, Briggs & Stratton® and Kawasaki® engines and long lasting steel mower decks to keep your mower cutting for years to come.

Innovating Convenience

With over 16 battery operated lawn care tools the Snapper XD 82V Max* lineup has the right tool for you to get the job done quickly and quietly. Learn more at snapper.com.

Top Reasons To Choose A Snapper Dealer

Snapper Dealers Are Mower Experts

You can actually talk to someone who really knows what they're talking about. Friendly, straight talk you can't get anywhere else.

Try It Out

Test drive your new mower to learn how to operate it.

Hassle-Free Purchase

Your Snapper Dealer can get you started with your new mower including set-up and delivery.

Service Support When You Need It

Factory-trained service technicians and a stocked parts department will keep you mowing for years to come.

HI VAC[®] and NINJA[®] Series

HI VAC Series

NINJA Series

HI VAC Mower Deck

The HI VAC Mower Deck is made of deep-drawn heavy-gauge steel with a rolled bottom edge which creates vacuum-like suction to pick up grass clippings off of your lawn with ease.

NINJA Mulching System

The NINJA Walk Mower's powerful blade with six cutting surfaces finely mulches grass clippings while the deck blows them back into your yard.

Grass Gripper

Rear-wheel drive improves mower traction. The smooth-turn differential helps ensure easy maneuverability without damaging your grass.

Dependable Power

Briggs & Stratton has delivered power to mowers for decades. Available electric start and standard ReadyStart[®] are just a few of our industry leading features. Includes a cast-iron sleeve for longer life.

Available Electric Start

Convenient key electric start for easy starting every time. (P2185020E)

Commercial Series

Premium Power

The Briggs & Stratton Professional Series OHV engine delivers professional-grade features including easier starting, smoother and quieter operation, increased durability and a spin-on oil filter for longer life.

High Performance Power

Honda answers the demands for rugged applications with the GXV160 OHV engine.

Easier to Maneuver

The smooth-turn differential helps ensure easy maneuverability without damaging your grass. The rear-wheel drive helps improve mower traction uneven terrain.

Commercial-Grade Features

Whether you're cutting five lawns in a day or just one, the heavy-duty 14-gauge steel mowing deck, reinforced bracing, steel axle and wheels stand up to the task - no matter how tough the job.

Rugged Durability

Rugged steel wheels with ball-bearings provide durability all season long.

Rear Engine Rider

Tried and True

Some dependable designs are ingeniously simple. Snapper's disc drive transmission uses a spinning plate to power a moveable rubber disc.

HI VAC Mower Deck

Similar to a vacuum, the HI VAC mower deck efficiently cuts and vacuums up grass clippings for a clean finish. The secret to the cut is the unique blade and rolled deck edge that generates a large volume of air and creates suction.

Optional NINJA Mulching Blade

Finely mulch your grass with our exclusive NINJA Blade that features six powerful cutting surfaces. While the blade mulches the grass clippings, the deck design blows them back into the lawn.

Getting Started

Briggs & Stratton engines offer the reliability you can count on when mowing the lawn.

Easy-to-Use Design

After over 50 years of proven performance, the rear engine rider has been engineered to maintain tried and true features that the Snapper brand is known for. An easy-to-use design with enhanced features still delivers the same dependability you would expect from a mowing icon.

Vertical Stand-On-Edge Capability

Take up less room in storage and make deck maintenance simple by easily and safely standing the rear engine rider on its end.

★★★★★ 5 out of 5 stars

Small footprint in my garage, GREAT job on my lawn!

"LOVE the handling, speed range (especially with new notched shift plate they provided free), easy change from side chute to mulch, and small storage space needed in my garage. Best rider I've owned for my 1/3 acre yard." -*Snapper John*

An American Classic Reborn.

SPX™ Series

Step Up to High Value

Steel construction including the hood, cast-iron front axle and a hydrostatic transmission are hallmarks of SPX Tractors. The now standard steel front bumper provides added durability.

Quick-Adjust Cutting Height

Easy-to-use height-of-cut controls adjust the mower deck for changing grass conditions.

Fabricated Mower Decks

The durable 42" and 48" fabricated mower decks feature welded, heavy-duty steel for non-stop mowing season-after-season. All fabricated decks come with a limited lifetime warranty¹.

Step On It

Our responsive foot pedals give you hands-free control over forward and reverse speed. The dash mounted cruise control lets you comfortably set your speed.

Turning Perfection

With a 14" turning radius, you can spend less time mowing and more time enjoying your yard.

Illuminating LED Headlights

LED headlights brighten your path when mowing at dawn or dusk.

Straightforward Design.

360Z

Compact Footprint

36-inch compact fabricated deck options make it easy to navigate even the tightest parts of your lawn and takes up less space when in storage.

Commercially-Inspired

A fully-welded steel frame, thick-walled front axle, durable mower deck, long-lasting caster spindles ensure durability and a great cut.

Engine Options

High performance engine options include Briggs & Stratton Professional Series with No Prime No Choke ReadyStart technology, and the Kawasaki FR series making sure your zero turn mower has the power to perform year after year.

More Than Just a Zero Turn

Snapper's first dirt-hauling, tool-toting, flower-delivering and, of course, grass-cutting zero turn mower. The integrated cargo bed[†] provides on-the-go versatility and convenience. Plus, the rail system is compatible with numerous third-party UTV/ATV accessories for added utility around your yard.

Best Mower I've Ever Had

"Bought this mower... and it is great. Our yard is about 3 acres and while I've had some good mowers, this one is the best. This is the first zero turn mower I've ever had, and it has shortened my mowing time down to 1 1/2 hour. It used to take me about 3 hours. Wished I'd bought one sooner." - *Catfish*

www.snapper.com

New Levels of Versatility.

460Z

More Choices

More is better when it comes to cutting height options with 12 different settings from 1.5 to 4.5 inches high. The foot-pedal assisted deck lift makes changing mowing heights easier.

Mow More. Stop Less.

Its wide-neck 5.5 gallon fuel tank and easy-off cap holds more fuel for your uninterrupted mowing pleasure.

Fabricated Steel Mowing Deck

Snapper fabricated mowing decks are made to last with reinforced top, side, corners, and front to ensure excellent cut quality and durability.

Turf-Friendly

There's a fine line between turf traction and turf damage. That's why the large, turf-friendly tires leave grass just like you found it, but shorter.

Rugged Durability

With its heavy-duty, all-steel construction frame, contour hugging front axle and reliable Hydro-Gear Transaxles, this zero turn is built to perform year after year.

Workhorse

Built for harsh zero turn mowing conditions, the Briggs & Stratton Commercial Series engine has what it takes to perform, including an advanced debris management system and beefed up cylinder block.

The Right Mower for the Big Job.

560Z

Choose Your Power

Built for harsh zero turn mowing conditions, the Briggs & Stratton Commercial Series Engine has what it takes to perform for years to come. The Kawasaki FR Series Engine offers smooth power output and durability.

Efficient Mowing

Wide, 52" or 61" fabricated mower decks made from thick 10-gauge steel mow grass in no time with speeds up to 9 mph. Welded and reinforced for years of repeat mowing and are also backed by a limited lifetime warranty*.

Simple Height-of-Cut

Convenient foot-assisted mower deck lift easily adjusts cut-height from 1.5 to 4.5 inches.

Rugged Durability

Commercial-inspired components such as rugged 1.5" x 2" steel front axle, high-performance Hydro-Gear ZT-3200® Hydrostatic Transaxles and a wrap-around steel bumper ensure this mower is built to handle tough applications.

Added Versatility

The integrated cargo bed* dumps to the rear for easy clean-out and provides on-the-go versatility for dirt-hauling, tool-toting and flower-delivering. The rail system is also compatible with numerous third-party UTV/ATV accessories for added utility.

Intuitive Controls

Easy-to-use controls are all conveniently located within reach. A wide-mouth gas fill ensures you can easily fill gasoline without any spills.

Great Deal of a Mower

"I've had this mower 2 weeks now and I absolutely love this mower. With this beast it takes 1 hour or less to cut the same area and don't have to worry about the grass clogging up chute plus the lawn looks great (no more clumps). I would highly recommend this mower to anyone who doesn't have the time to spend on having to spend 1/2 a day trying to get a great looking the lawn." - *Mowing NC*

Briggs & Stratton Corporation has a policy of continuous product improvement and reserves the right to modify its specifications at any time and without prior notice. Products may vary from images shown.

Briggs & Stratton: All power levels are stated gross horsepower at 3600 rpm per SAE J1940.

Kawasaki: Only Kawasaki Critical Power engines listed in this brochure have been tested in accordance with SAE J1995, verified by TÜV Rheinland Group, horsepower-rated in accordance with SAE J2723, and certified by SAE International. Torque ratings of these engines were not certified by SAE. Actual power and torque output will vary depending on numerous factors, including, but not limited to, the operating speed of the engine in application, environmental conditions, maintenance, and other variables.
